# **PRODUCT DATA SHEET**

# **Tritirachium album Proteinase-K Recombinant**

Cat. No.: RP1791015100 Source: Yeast Species: Tritirachium album Size: 1 g Type: Recombinant protein

## **Other Names:**

Endopeptidase K, Tritirachium alkaline proteinase, Engyodontium album proteinase, Parengyodontium album proteinase, PROK

## **Description:**

Recombinant Tritirachium album Proteinase-K expressed in yeast containing 285 amino acids having a Mw of 29.3 kDa is purified by standard chromatography techniques. The biological activity is 34 Units/mg protein.

#### **Purity:**

Greater than 99% as determined by SDS-PAGE.

## Formulation:

The Proteinase-K was lyophilized without any additives.

#### **Reconstitution:**

It is recommended to reconstitute the lyophilized Proteinase-K in 20mM Tris-HCl (pH 7.4~8.0), 1mM CaCl2, 50% glycerol not less than  $100\mu$ g/ml, which can then be further diluted to other aqueous solutions.

#### Shipping:

At ambient temperature. Upon receipt, store the product at the temperature recommended below.

#### Storage/Stability:

Recombinant Proteinase-K although stable at room temp for 1 week, should be stored desiccated below -18°C.

For long term storage it is recommended to add a carrier protein (0.1% HSA or BSA). Please prevent freeze-thaw cycles.

#### **Applications:**

Biologically active protein

#### Note:

This BioVendor product is furnished for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.
