### SAFETY INFORMATION

**Product name:** HUMAN CARTILAGE OLIGOMERIC MATRIX PROTEIN ELISA

**Catalogue number:** RD194080200

**Characteristics:** The RD194080200 Human Cartilage Oligomeric Matrix Protein ELISA is a sandwich enzyme immunoassay for the quantitative measurement of human cartilage oligomeric matrix protein (COMP).

**Intended use:** For professional use only. Users should have a thorough understanding of the IFU prior to their use of this kit.

**Manufacturer:** BioVendor – Laboratorní medicína a.s.

**Registered office:** Karásek 1767/1, 621 00 Brno, Czech republic

**Company ID:** 63471507

Safety Data Sheets in accordance with the current (EC/EU) Regulations as amended are attached.
### SECTION 1  IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

1.1 **Product identifier**  
**Trade name:** StabilZyme™ HRP Conjugate Stabilizer  
**Code:** SZ02  
**Product form:** mixture

1.2 **Relevant identified uses of the substance or mixture and uses advised against**  
**Relevant identified uses** Use of the substance/mixture  
Use of the substance/mixture: For further manufacture  
**Uses advised against**  
No additional information available

1.3 **Details of the supplier of the safety data sheet**  
BioVendor - Laboratorní medicína a.s.  
Karásek 1767/1  
621 00 Brno  
Czech Republic  
Identification number: 63471507  
Tel: +420 549 124 185  
E-mail: info@biovendor.com  
Website: www.biovendor.com

1.4 **Emergency telephone number**  
European Chemicals Agency. National helpdesks contact details

### SECTION 2  HAZARDS IDENTIFICATION

2.1 **Classification of the substance or mixture**  
Classification according to Regulation (EC) No. 1272/2008 [CLP]  
Skin sensitisation, Category 1 H317  
Full text of H statements: see section 16  
Adverse physicochemical, human health and environmental effects  
No additional information available

2.2 **Label elements**  
Labelling according to Regulation (EC) No. 1272/2008 [CLP]  
**Hazard pictograms**  
![GHS07](image)  
**Signal word (CLP):** Warning

---

Hazardous ingredients:
Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7]; and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6]

Hazard statements:
H317 May cause an allergic skin reaction

Precautionary statements:
P261 Avoid breathing mist, vapours
P272 Contaminated work clothing should not be allowed out of the workplace
P280 Wear eye protection, protective gloves, protective clothing
P302+P352 IF ON SKIN: Wash with plenty of soap and water
P321 Specific treatment (see supplemental first aid instruction on this label)
P333+P313 If skin irritation or rash occurs: Get medical advice/attention
P362+P364 Take off contaminated clothing and wash it before reuse
P501 Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

EUH-statements:
EUH210 Safety data sheet available on request
EUH208 Contains CMIT/MIT. May produce an allergic reaction

2.3 Other hazards
Other hazards not contributing to the classification: None under normal conditions.

MATERIAL SAFETY DATA SHEET

StabilZyme™ HRP Conjugate Stabilizer

SECTION 4  FIRST AID MEASURES

4.1 Description of first aid measures

First-aid measures general:
If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

First-aid measures after inhalation: IF INHALED: Remove to fresh air and keep at rest in a comfortable position for breathing.

First-aid measures after skin contact: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.

First-aid measures after eye contact: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing if pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.

First-aid measures after ingestion: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. Get medical attention if you feel unwell.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms/effects:
May cause an allergic skin reaction.

Symptoms/effects after inhalation:
May cause respiratory irritation.

Symptoms/effects after skin contact:
May cause an allergic skin reaction.

Symptoms/effects after eye contact:
Direct contact with eyes is likely to be irritating.

Symptoms/effects after ingestion:
May cause gastrointestinal irritation.

4.3 Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5  FIREFIGHTING MEASURES

5.1 Extinguishing media

5.2 Special hazards arising from the substance or mixture

Fire hazard:
No data available.

Explosion hazard:
No data available.

5.3 Advice for firefighters

Firefighting instructions:
Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical. Do not dispose of fire-fighting water in the environment.
Protection during firefighting:
Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6  ACCIDENTAL RELEASE MEASURES

6.1  Personal precautions, protective equipment, and emergency procedures
General measures: Evacuate area. Keep upwind. Ventilate area. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).

6.1.1  For non-emergency personnel
Protective equipment: Wear Protective equipment as described in Section 8.
Emergency procedures: Evacuate unnecessary personnel.

6.1.2  For emergency responders
Protective equipment: Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency.

6.2  Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

6.3  Methods and material for containment and cleaning up
For containment:
Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.
Methods for cleaning up
Place in a suitable container for disposal in accordance with the waste regulations (see Section 13). Wash spill area thoroughly with plenty of soap and water.

6.4  Reference to other sections
No additional information available

SECTION 7  HANDLING AND STORAGE

7.1  Precautions for safe handling
Precautions for safe handling: Do not handle until all safety precautions have been read and understood. Use appropriate personal protection equipment (PPE). Keep away from sources of ignition - No smoking. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2  Conditions for safe storage, including any incompatibilities
Storage conditions: Keep the container tightly closed. Store in a dry, cool and well-ventilated place. Avoid elevated temperatures.
Storage temperature: Refrigerated or room temperature

7.3  Specific end use(s)
No additional information available
### SECTION 8  EXPOSURE CONTROLS / PERSONAL PROTECTION

#### 8.1 Control parameters

<table>
<thead>
<tr>

</tbody>
</table>

#### 8.2 Exposure controls

**8.2.1 Appropriate engineering controls:**
Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

**8.2.2 Individual protection measures, such as personal protective equipment**
- Gloves. Protective goggles. Protective clothing.
  
  **a) Eye protection:**
  
  Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles. END 166.
  
  **b) Skin protection**
  
  **Body protection:**
  Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.
  
  **Hand protection:**
  Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl.
  
  **c) Respiratory protection:**
  Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment. EN 250.

9.2 Other information

No additional information available

SECTION 10  STABILITY AND REACTIVITY

10.1 Reactivity
No dangerous reactions known under normal conditions of use.

10.2 Chemical stability
Stable under recommended handling and storage conditions (see section 7).

10.3 Possibility of hazardous reactions
None known.

10.4 Conditions to avoid
None known.

10.5 Incompatible materials
None known.

10.6 Hazardous decomposition products
Thermal decomposition generates: Carbon oxides (CO, CO2). Nitrogen oxides. Other toxic fumes.
SECTION 11  TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute toxicity: Not classified
Skin corrosion/irritation: Not classified pH: Neutral
Serious eye damage/irritation: Not classified pH: Neutral
Respiratory or skin sensitisation: May cause an allergic skin reaction.
Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
STOT - single exposure: Not classified
STOT - repeated exposure: Not classified
Aspiration hazard: Not classified

SECTION 12  ECOLOGICAL INFORMATION

12.1 Toxicity

SECTION 15  REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1 EU-Regulations
Contains no substances with Annex XVII restrictions StabilZyme® HRP Conjugate Stabilizer is not on the REACH Candidate List

Contains no substance on the REACH Candidate List
Contains no REACH Annex XIV substances.

15.1.2 National regulations
All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory

Germany
VwVwS Annex reference: Water hazard class (WGK) 3, severe hazard to waters (Classification according to VwVwS, Annex 4)
12th Ordinance Implementing the Federal Immission : Is not subject of the 12. BImSchV (Hazardous Incident Ordinance)
Control Act - 12.BImSchV

15.2 Chemical Safety Assessment
No additional information available

SECTION 16  OTHER INFORMATION

Warning:
The safety data sheet contains data needed for securing safety and health protection during work and environ-mental protection. The stated data correspond to the current state of knowledge and experience and is in accord-ance with valid legal regulations. It cannot be deemed as a guarantee of the properties, suitability, and usefulness of the product for specific application and therefore no contractual legal relationships are hereby created.
The safety data sheet is the property of the physical or legal entity stated in Section 1 and is protected by copy-right. All copying, distribution or sales without the consent of the owner is forbidden.

Relevant phrases:
H301 Toxic if swallowed
H310 Toxic in contact with skin
H314 Causes severe skin burns and eye damage
H317 May cause an allergic skin reaction
H318 Causes serious eye damage
H330 Fatal if inhaled
H400 Very toxic to aquatic life
H410 Very toxic to aquatic life with long lasting effects
EUH208 Contains . May produce an allergic reaction
EUH210 Safety data sheet available on request

Training hints:
Pursuant to article No 35 of the European Parliament and Council Regulation (ES) No 1907/2006, the employer must allow employees or their representatives access to information from the safety data sheet of the substance or preparation, which the employees use or to the effects of which they may be exposed during their work.
Physical entities performed individual activities within the scope of handling of this hazardous product are trained and regularly, at least once a year, retrained.
Product information sources: safety data sheet, product or technical information, safety instructions, and other ex-pert documents for the product, issued by the supplier.

Date of issue: 2.1.2023
Recommended restriction of use:
The product is designed only for professional purposes. It must not be used in households. The product can only be handled by a person older than 18 years, who is sufficiently informed about the work procedures, hazardous properties of the product, and also about the necessary safety measures.
The product is to be used only for the purpose, for which it is designed. It is up to the user's responsibility to adhere to the product usage conditions and to respect the safety instructions for health and environmental protection.
Further information: This product must be stored, sold, and used in accordance with valid hygienic regulations.

SECTION 2 HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation 1272/2008/EC:
Corrosive to metals, Met. Corr. 1, H290
This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). (USA)

2.2 Label elements

Hazard pictogram:

GHS05

Signal word: Warning

Hazard statement:
H290 May be corrosive to metals.

Precautionary statement:
not assigned

2.2.1 Labelling of packages where the contents does not exceed 125 ml:

Hazard pictogram:
none

Signal word:
none
Material Safety Data Sheet
Sulphuric Acid < 5 %

Hazard statement:
none

Precautionary statement:
none

2.3 Other hazards
This mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1 % or higher.

SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

</tbody>
</table>

Classification according to regulation 1272/2008/EC:
Met. Corr. 1, H290
Skin Corr. 1A, H314
Eye Dam. 1, H318
Specific concentration limits: Skin Corr. 1A, H314: C≥15 %; Skin Irrit. 2, H315: 5 %≤C<15 %; Eye Irrit. 2, H319: 5 %≤C<15 %.

For full text of and H-phrases see section 16.

SECTION 4 FIRST AID MEASURES

4.1 Description of first aid measures

General information:
If feeling unwell or unsure, inform a doctor and show information from this Safety Data Sheet. If unconscious, place the affected person in the recovery position on their side with their head slightly backwards and take care there is no obstruction in their respiratory tract, NEVER induce vomiting. If the affected person is vomiting, ensure that they do not choke on their own vomit.

If inhaled: Immediately stop the exposure, take the affected person to fresh air. Keep the affected person warm. Get medical attention if irritation, shortness of breath or other symptoms persists.

In case of skin contact: Take off contaminated clothing. Wash the affected area with plenty of lukewarm water, if possible. If skin is not irritated, soap, soap solution or shampoo can be used. Get medical attention if irritation persists.

In case of contact with eyes: Rinse the eyes immediately with plenty of running water keeping eyelids open; if the affected person wears contact lenses, remove them immediately. Continue rinsing for minimum 10 minutes. Get medical attention.

If ingested: DO NOT INDUCE VOMITING – even the act of inducing vomiting may cause complications. Rinse mouth, if possible, administer a small dose of activated carbon (1-2 crushed tablets); do not attempt neutralization. Get medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Inhalation: Possible respiratory tract irritation, cough, headache.
Skin contact: Painful reddening, irritation.
Eye contact: May cause irritation.
Ingestion: May cause irritation, sickness.

4.3 Indication of any immediate medical attention and special treatment needed
Immediate medical attention is not necessary.
SECTION 5  FIREFIGHTING MEASURES

5.1 Extinguishing media
Suitable extinguishing media: Alcohol resistant foam, carbon dioxide, powder, dispersed water, water spray.
Unsuitable extinguishing media: none known.

5.2 Special hazards arising from the substance or mixture
In case of fire sodium oxides can be released.

5.3 Advice for firefighters
Keep the contaminated fire-extinguishing media away from drains, surface and ground water. If necessary, wear a suitable self-contained breathing apparatus and full protective clothing.

SECTION 6  ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Ensure sufficient ventilation. Wear proper protective equipment, refer to Section 8.

6.2 Environmental precautions
Avoid soil contamination and keep away from surface and ground water. Avoid spills and keep away from drains.

6.3 Methods and material for containment and cleaning up
Cover spills with suitable (non-flammable) absorbent (sand, diatomaceous earth, soil, and other suitable absorbent material); collect in a tightly closed container and dispose of in compliance with Section 13. Dispose of the contained material in accordance with local regulations. After containment, wash the affected area with plenty of water or other suitable detergent.

6.4 Reference to other sections
See section 7 for handling, section 8 for personal protective equipment, section 13 for disposal.

SECTION 7  HANDLING AND STORAGE

7.1 Precautions for safe handling
Do not inhale gases and vapours. Avoid contact with the skin and the eyes. Wear suitable personal protective equipment according to Section 8. Comply with local and national regulations on occupational health and safety. Avoid long-term and repeated exposure.

7.2 Conditions for safe storage, including any incompatibilities
Keep in tightly closed containers and in cool, dry and well-ventilated designated places. Open packaging must be carefully closed and kept in a vertical position to avoid release or spill. Keep away from alkaline materials.

7.3 Specific end use(s)
See Section 1.2., no other uses are identified.

SECTION 8  EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters
Czech Republic (Government Decree no. 361/2007 Sb. as amended): Sulphuric acid, SO₃: long term 1 mg/m³, short term 2 mg/m³, note I (causes irritation of mucous membranes (eyes, respiratory tract) and skin irritation).
8.2 Exposure controls

8.2.1 Appropriate engineering controls
Use in a well-ventilated area.

8.2.2 Individual protection measures, such as personal protective equipment
Take usual occupational health and safety measures. If it is impossible to meet exposition limits, suitable respiratory protective equipment must be used. When using, do not eat, drink and smoke. Wash hands carefully with water and soap after work and before breaks.

- **Eye/face protection:**
  Use protective glasses (according to EN 166).

- **Skin protection:**
  - **Hand protection:**
    Use suitable protective gloves resistant to the product. Follow the recommendations of the gloves manufacturer when selecting the appropriate thickness, material and permeability. In the event of long-term or repeated dermal exposure, apply suitable hand cream to the parts of the skin in direct contact with the mixture. Follow other recommendations of the manufacturer.
  - **Body protection:**
    Protective cotton clothing. Carefully wash the skin exposed to the product.

- **Respiratory protection:**
  If necessary, wear a face respirator (according to EN 14387).

- **Thermal hazards:** No information available.

8.2.3 Environmental exposure controls
Refer to Sections 6 and 12.

### SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

**9.1 Information on basic physical and chemical properties**

SECTION 10  STABILITY AND REACTIVITY

10.1 Reactivity
No hazardous reactions occur under common conditions of use.

10.2 Chemical stability
Stable under normal conditions.

10.3 Possibility of hazardous reactions
Reacts with strong bases.

10.4 Conditions to avoid
No data available.

10.5 Incompatible materials
Not known under recommended conditions of use.

10.6 Hazardous decomposition products
They are not produced under normal use. In the event of fire: sulphur oxides.

SECTION 11  TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity: The classification criteria are not met.
Sulphuric acid: The classification criteria are not met.
LD50, oral, rat: 3140 mg/kg
LD50, inhalation, rat: 510 mg/m³/2 h
Skin corrosion/irritation: The classification criteria are not met. May cause mild irritation.
Serious eye damage/irritation: The classification criteria are not met. May cause mild irritation.
Respiratory or skin sensitisation: The classification criteria are not met.
Germ cell mutagenicity: The classification criteria are not met.
Carcinogenicity: The classification criteria are not met.
Reproductive toxicity: The classification criteria are not met.
STOT – single exposure: The classification criteria are not met.
STOT – repeated exposure: The classification criteria are not met.
11.2 Information on other hazards
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1 % or higher.

SECTION 12 ECOLOGICAL INFORMATION

12.1 Toxicity
No data available on the product itself.
Sulphuric acid:
LC50, fish, Gambusia affinis, 96 h: 42 mg/l
LC50, crustaceans, Pandalus montagui, 48 h: 42,5 mg/l

12.2 Persistence and degradability
No data available.

12.3 Bioaccumulative potential
No data available.

12.4 Mobility in soil
No data available.

12.5 Results of PBT and vPvB assessment
Does not meet the criteria for PBT and vPvB.

12.6 Endocrine disrupting properties
The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1 % or higher.

12.7 Other adverse effects
No data available.

SECTION 13 DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
Dispose of in accordance with applicable national regulations, to regulate packaging and to amend some statutes (the Packaging Act), as amended and in accordance with implemented regulations on waste disposal.
Appropriate methods of waste treatment of both the substance or the mixture and any contaminated packaging:
The indicated waste, including the waste identification sheet, shall be handed over to a company authorized to treat and dispose of wastes according to the Waste Act and that the company producing waste has entered into a contract with.
Both completely empty and not completely empty packaging shall be placed in designated containers for waste collection and the indicated waste shall be handed over for disposal to a person authorized to dispose of the waste.

Waste type code: 060101
Waste type: sulphuric acid and sulphurous acid *
Waste subgroup: waste from production, processing, distribution and use (VZDP) of acids
Waste group: WASTE CREATED BY ANORGANIC CHEMICAL PROCESSES

Waste type code for packaging: 150110
MATERIAL SAFETY DATA SHEET

Sulphuric Acid < 5 %

Waste type: packaging containing residues of dangerous substances or packaging contaminated with these substances *

Waste subgroup: Packaging (including separately collected household packaging material)

Waste group: WASTE PACKAGING; ABSORPTION AGENTS; CLEANING CLOTHS; FILTRATION MATERIALS AND PROTECTIVE CLOTHING NOT SPECIFIED IN ANY OTHER MANNER

* ( * ) – hazardous waste according to Directive No. 91/689/EEC on hazardous waste

SECTION 14 TRANSPORT INFORMATION

14.1 UN number or ID number
3264.

14.2 UN proper shipping name
CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. (sulphuric acid).

14.3 Transport hazard class
8.

14.4 Packing group
III.

14.5 Environmental hazards
No.

14.6 Special precautions for user
No data available.

14.7 Maritime transport in bulk according to IMO instruments
No data available.

SECTION 15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Act No. 350/2011 Coll., to regulate chemical substances and chemical mixtures and to amend some statutes, as amended. Implemented regulations to Act No. 350/2011 Coll., as amended

U.S. Federal regulations:
TSCA 8(a) CDR Exempt/Partial exemption: Not determined
United States inventory (TSCA 8b): All components are listed or exempted.
Clean Water Act (CWA) 311: sulphuric acid.

15.2 Chemical safety assessment
Chemical safety assessment has not been carried out.

SECTION 16 OTHER INFORMATION

Warning:
The safety data sheet contains data needed for securing safety and health protection during work and environmental protection. The stated data correspond to the current state of knowledge and
experience and is in accordance with valid legal regulations. It cannot be deemed as a guarantee of the properties, suitability, and usefulness of the product for specific application and therefore no contractual legal relationships are hereby created.

The safety data sheet is the property of the physical or legal entity stated in Section 1 and is protected by copyright. All copying, distribution or sales without the consent of the owner is forbidden.

Relevant phrases:

H290 May be corrosive to metals.
H314 Causes severe skin burns and eye damage.
H315 Causes skin irritation.
H318 Causes serious eye damage.
H319 Causes serious eye irritation.

Training hints:

Pursuant to article No 35 of the European Parliament and Council Regulation (ES) No 1907/2006, the employer must allow employees or their representatives access to information from the safety data sheet of the substance or preparation, which the employees use or to the effects of which they may be exposed during their work.

Physical entities performed individual activities within the scope of handling of this hazardous product are trained and regularly, at least once a year, retrained.

Product information sources: safety data sheet, product or technical information, safety instructions, and other expert documents for the product, issued by the supplier.

Recommended restriction of use:

The product is designed only for professional purposes. It must not be used in households. The product can only be handled by a person older than 18 years, who is sufficiently informed about the work procedures, hazardous properties of the product, and also about the necessary safety measures.

The product is to be used only for the purpose, for which it is designed. It is up to the user’s responsibility to adhere to the product usage conditions and to respect the safety instructions for health and environmental protection.

Further information: This product must be stored, sold, and used in accordance with valid hygienic regulations.

Date of issue: 30.5.2022
