

PRODUCT DATA SHEET

SARS-CoV-2 (2019-nCoV) Nucleocapsid Protein, Mosaic E.coli Recombinant

Cat. No.: RP9720150050

Size: 0.05 mg

Source: E. coli

Type: Recombinant protein

Species: SARS

Other Names:

Severe acute respiratory syndrome coronavirus 2 nucleocapsid, 2019 novel coronavirus nucleoprotein, SARS-CoV-2 NP, SARS-CoV-2 N protein, COVID-19

Description:

The E.Coli derived recombinant protein contains the SARS-CoV-2 full length nucleocapsid Mosaic immunodominant regions, fused to His tag at the C-terminal.

Purity:

Greater than 90.0% as determined by Analysis by SDS-PAGE.

Formulation:

SARS-CoV-2 Nucleocapsid-Mosaic Protein 1mg/ml solution is supplied in 1x PBS.

Storage/Stability:

Shipped on ice packs. Store at -20°C upon arrival.

Applications:

COVID-19

Note:

BioVendor's products are furnished for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.
