

Safety data sheet According to regulation (EC) No. 1907/2006

Rev.date: 25.07.2019 replaces version from 08.03.2011

Identification of the substance/preparation and the company/undertaking

 Product identifier
 Catalogue no.:
 IC6400kg
 Product name:
 IC6400kg
 Anti human tissue transglutaminase sIgA / IgA ELISA
 Conjugate (CONJ)

1.2. Relevant identified uses of the substance or mixture and uses advised against Materials for use in the appropriate testkit.

1.3. Details of the supplier of the safety data sheet Company: ImmuChrom GmbH Lise-Meitner-Str. 13 64646 Heppenheim Tel.: +49 6252 910084 Fax: +49 6252 910070 Email: info@immuchrom.de www.immuchrom.de

1.4. Emergency telephone number Available during the normal working hours +49 6252 910084

Hazards identification
 Classification of the substance or mixture (Regulation (EC) No 1272/2008 none

2.2. Label elements (Regulation (EC) No 1272/2008 Hazard pictograms

Signal word

Hazard statements

Precautionary statements P280 P302 + P352 P305 + P351 + P338 P310

3. Composition/information on ingredients

The mixture contains the substances listed below and substances without dangerous potential.

CAS-No.	EINECS	Description	Percent	H-codes of pure substance
26172-55-4	247-500-7	5-Chlor-2-methyl-4-isothiazolin-3-on	<0,005	301, 311, 314, 317, 331, 410
2682-20-4	220-239-6	2-Methyl-4-isothiazolin-3-on	<0,001	301, 311, 314, 317, 331, 410
54-64-8	200-210-4	Thimerosal	<0,01	300, 310, 330, 373, 400, 410

4. First aid measures

4.1. Description of first aid measuresGeneral advice: First aider needs to protect himself.After inhalation: Fresh air, in case of discomfort consult a physician.

After skin contact: Wash with plenty of water, remove contaminated clothing, in case of discomfort consult a physician.

After eye contact: Rinse out with plenty of water. Immediately contact a ophthalmologist.

If swallowed : Give water to drink (two glases at most). Immediately contact a physician.

4.2. Most important symptoms and effects, both acute and delayed No information available

4.3. Indication of immediate medical attention and special treatment needed No information available

5. Fire fighting measures

5.1. Extinguishing media Suitable extinguishing media: Water, foam, carbon dioxyde (CO₂)

Unsuitable extinguishing media: none

5.2. Special hazards arising from the substance ort he mixture Ambient fire may cause evolution of nitrous gases

5.3. Advice for firefighters Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation, observe emergency procedures, call an expert.

6.2. Environmental precaution Do not empty into drains

6.3. Methods and materials for containment and cleaning up Cover drains. Collect, bind and pump off spills.

6.4. Reference to other sections For waste treatment refer to section 13

7. Handling and storage

7.1 Precaution for safe handling Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards.

7.2. Conditions for safe storage, including any incompatibilities

Keep tightly closed.

Store at +2 - +8 °C.

7.3. Specific end uses Apart from the use mentioned in section 1.2. no other specific uses are stipulated

8. Exposure controls/personal protection

8.1. Control parameters

CAS-No.	Description
26172-55-4	5-Chlor-2-methyl-4-isothiazolin-3-on
2682-20-4	2-Methyl-4-isothiazolin-3-on
54-64-8	Thimerosal

MAK (TRGS 900) 0,05 mg/m³ 0,05 mg/m³ not listed

8.2. Exposure controls

Technical measures to reduce safety risk for the operator should be given priority over the use of personal protective equipment.

Individual protection measures

Hygiene measures: Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards. Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled.

Eye protection: Wear safety glasses.

Hand protection: wear safety gloves The gloves must comply with the specifications of the directive EC 89/686/EEC and the related standard EN374.

Respiratory protection: Not necessary

Environmental exposure control: Do not empty into drains

9. Physical and chemical properties

10. Stability and reactivity

10.1. Reactivity no information available

10.2. Chemical stability

Temperature sensitive. The mixture is stable at 2-8 °C up to the expiry date given on the label

10.3. Possibility of hazardous reactions

Risk of explosion and/or toxic gas formation with the following substances no information available

Violent reactions possible with:

No degradation when using according to the specification

10.4. Conditions to avoid Heat, direct sunlight

10.5. Incompatible materials Heavy metal salts, peroxidases, catalses

10.6. Hazardous decomposition products No information available.

11. Toxicological information

11.1. Information on toxicological effects			
Component	Туре	Value	Species
5-Chlor-2-methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	3350 mg/kg	Rat
2-Methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	550 mg/kg	Rat
Thimerosal	LD ₅₀ (oral)	75 mg/kg	Rat

Skin irritation Slight irritation

Eye irritation Slight irritation

CMR effects No information available

Specific target organ toxicity No information available

Aspiration hazard No information available

11.2. Further information

Quantative data on toxicity of the mixture are not available

12. Ecological information

12.1. Toxicity			
Only relevant for the preservatives 5-Chlor-2	-methyl-4-isothia	azolin-3-on	und 2-Methyl-4-
isothiazolin-3-on.	,		,
Species	Туре	Value	Exposition time (h)
Trout	LC ₅₀ (mg/l)	0,19	
Perch	LC ₅₀ (mg/l)	0,28	
Algae (Skeletonema costatum)	EC ₅₀ (mg/l)	0,003	
Algae (Selenastrum capricornutum)	EC ₅₀ (mg/l)	0,018	
Invertebrate (Daphnia magna)	EC ₅₀ (mg/l)	0,16	
Only relevant for the preservative Thimerosa	ıl.		
Species	Туре	Value	Exposition time (h)
Catfish	LC ₅₀ (mg/l)	7,5	24
12.2. Persistence and degradability			
Substance	t1/2 anaerob	<u>(h)</u>	

5-Chlor-2-methyl-4-isothiazolin-3-on	4,8
2-Methyl-4-isothiazolin-3-on	9,1
Thimerosal	no information available

12.3. Bioaccumulative potencial	
Substance	Log Pow
Thimerosal	-1,88

. ..

Bioaccumulation is not expected because log Pow < 1

No information available for 5-Chlor-2-methyl-4-isothiazolin-3-on und 2-Methyl-4-isothiazolin-3-on.

12.4. Mobility in soil No information available

.

12.5. Results of PBT- and vPvB-assessment A PBT- and vPvB-assessment is not available, as a chemical safety assassment is not required/not conducted.

12.5. Other adverse effectsNo other effects are knownWhen using according the instruction ecological danger is not expected

13. Disposal consideration

Leftovers should be disposed concerning to the regulation 2008/98/EC and/or national and regional regulations.

Uncontaminated packing can be treated as normal waste or conduct into the recycling process.

14. Transport information

Not supposed to the transport regulation

ADR/RID

ΙΑΤΑ

IMDG

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture EU regulation

This safety data sheet complies with the requirements of the regulation (EC) No. 1907/2006

15.2. Chemical safety assessment For this product a chemical safety assessment was not carried out

16. Other information

Text of H-codes mentioned in section 2

- H300 Fatal when swallowed
- H301 Toxic if swallowed
- H310 Fatal when skin contact
- H311 Toxic in contact with skin
- H314 Causes severe skin burns and eye damage
- H317 May cause an allergic skin reaction

H330	Fatal if inhaled
H331	Toxic if inhaled
H373	May cause damage to organs through prolonged or repeated exposure
H400	Very toxic to aquatic life
H410	Very toxic to aquatic life with long lasting effects
Precautionary state P280 P302+P352	ements Wear protective gloves, protective clothing, eye protection If on skin: Wash with plenty of soap and water
P305+P351+P338	If in eyes: Rinse cautiously with water for several minutes. Remove contact
P310	lenses, if present and easy to do. Continue rising. Immediately call a POISON CENTER or doctor/physician

The information contained herein is based on the present state of our knowledge. It characterises the product with regard to the appropriate safety precautions. It does not represent a guarantee of any properties of the product.

26628-22-8	Sodiumazide

MAK (TRGS 900) 0,2 mg/m³

8.2. Exposure controls

Technical measures to reduce safety risk for the operator should be given priority over the use of personal protective equipment.

Individual protection measures

Hygiene measures: Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards. Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled.

Eye protection: Wear safety glasses.

Hand protection: wear safety gloves The gloves must comply with the specifications of the directive EC 89/686/EEC and the related standard EN374.

Respiratory protection: Not necessary

Environmental exposure control: Do not empty into drains

9. Physical and chemical properties

Form Colour Odour	liquid colourless odourless
pH-Value	7,2
Melting point	no information available
Boiling point	100 °C
Flash point	no information available
Evaporation rate	no information available
Flammability (solid, gas)	no information available
Lower explosion limit	not exposive
Higher explosion limit	not explosive
Vapour pressure	no information available
Relative density	1,06
Water solubility	complete
Partition coefficient: n-oktanol/water	no information available
Autoignition temperature	no information available
Decomposition temperature	no information available
Viscosity, dynamic	no information available
Explosive properties	not explosive
Oxidizing properties	no information available
Other data	none

10. Stability and reactivity

10.1. Reactivity no information available

10.2. Chemical stability Temperature sensitive. The mixture is stable at 2-8 °C up to the expiry date given on the label

10.3. Possibility of hazardous reactions Risk of explosion and/or toxic gas formation with the following substances no information available

The mixture contains the substances listed below and substances without dangerous potential.

2682-20-4 220-239-6 2-Methyl-4-isothiazolin-3-on <0,001	CAS-No.	EINECS	Description	Percent	H-codes of pure substance
	26172-55-4	247-500-7	5-Chlor-2-methyl-4-isothiazolin-3-on	<0,005	301, 311, 314, 317, 331, 410
	2682-20-4	220-239-6	2-Methyl-4-isothiazolin-3-on	<0,001	301, 311, 314, 317, 331, 410
	77-86-1	201-064-4	Tromethamine	≤5	315, 319

4. First aid measures

4.1. Description of first aid measuresGeneral advice: First aider needs to protect himself.After inhalation: Fresh air, in case of discomfort consult a physician.

After skin contact: Wash with plenty of water, remove contaminated clothing, in case of discomfort consult a physician.

After eye contact: Rinse out with plenty of water. Immediately contact a ophthalmologist.

If swallowed : Give water to drink (two glases at most). Immediately contact a physician.

4.2. Most important symptoms and effects, both acute and delayed No information available

4.3. Indication of immediate medical attention and special treatment needed No information available

5. Fire fighting measures

5.1. Extinguishing media Suitable extinguishing media: Water, foam, carbon dioxyde (CO₂)

Unsuitable extinguishing media: none

5.2. Special hazards arising from the substance ort he mixture Ambient fire may cause evolution of nitrous gases

5.3. Advice for firefighters

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation, observe emergency procedures, call an expert.

6.2. Environmental precaution Do not empty into drains

6.3. Methods and materials for containment and cleaning up Cover drains. Collect, bind and pump off spills.

6.4. Reference to other sections For waste treatment refer to section 13

7. Handling and storage

7.1 Precaution for safe handling Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards.

7.2. Conditions for safe storage, including any incompatibilities

Keep tightly closed.

Store at +2 - +8 °C.

7.3. Specific end uses Apart from the use mentioned in section 1.2. no other specific uses are stipulated

8. Exposure controls/personal protection

8.1. Control parameters

CAS-No.	Description
26172-55-4	5-Chlor-2-methyl-4-isothiazolin-3-on
2682-20-4	2-Methyl-4-isothiazolin-3-on
77-86-1	Tromethamine

MAK (TRGS 900) 0,05 mg/m³ 0,05 mg/m³ not listed

8.2. Exposure controls

Technical measures to reduce safety risk for the operator should be given priority over the use of personal protective equipment.

Individual protection measures

Hygiene measures: Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards. Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled.

Eye protection: Wear safety glasses.

Hand protection: wear safety gloves The gloves must comply with the specifications of the directive EC 89/686/EEC and the related standard EN374.

Respiratory protection: Not necessary

Environmental exposure control: Do not empty into drains

9. Physical and chemical properties

10. Stability and reactivity

10.1. Reactivity no information available

10.2. Chemical stability Temperature sensitive. The mixture is stable at 2-8 °C up to the expiry date given on the label

10.3. Possibility of hazardous reactions Risk of explosion and/or toxic gas formation with the following substances no information available

Violent reactions possible with:

No degradation when using according to the specification

10.4. Conditions to avoid Heat, direct sunlight

10.5. Incompatible materials Heavy metal salts, peroxidases, catalses

10.6. Hazardous decomposition products No information available.

11. Toxicological information

Component	Туре	Value	Species
5-Chlor-2-methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	3350 mg/kg	Rat
2-Methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	550 mg/kg	Rat
Tromethamine	LD ₅₀ (oral)	5900 mg/kg	Rat

Eye irritation Slight irritation

Slight irritation

CMR effects No information available

Specific target organ toxicity No information available

Aspiration hazard No information available

11.2. Further information Quantative data on toxicity of the mixture are not available

12. Ecological information

12.1. Toxicity

Only relevant for the preservatives 5-Chlor-2-methyl-4-isothiazolin-3-on und 2-Methyl-4-isothiazolin-3-on.

Species	Туре	Value	Exposition time (h)
Trout	LC ₅₀ (mg/l)	0,19	
Perch	LC ₅₀ (mg/l)	0,28	
Algae (Skeletonema costatum)	EC ₅₀ (mg/l)	0,003	
Algae (Selenastrum capricornutum)	EC50 (mg/l)	0,018	
Invertebrate (Daphnia magna)	EC ₅₀ (mg/l)	0,16	
12.2. Persistence and degradability			
Substance	t1/2 anaerob (<u>(h)</u>	
5-Chlor-2-methyl-4-isothiazolin-3-on	4,8		
2-Methyl-4-isothiazolin-3-on	9,1		

12.3. Bioaccumulative potencial No information available

12.4. Mobility in soil No information available

12.5. Results of PBT- and vPvB-assessment A PBT- and vPvB-assessment is not available, as a chemical safety assassment is not required/not conducted.

12.5. Other adverse effectsNo other effects are knownWhen using according the instruction ecological danger is not expected

13. Disposal consideration

Leftovers should be disposed concerning to the regulation 2008/98/EC and/or national and regional regulations.

Uncontaminated packing can be treated as normal waste or conduct into the recycling process.

14. Transport information

Not supposed to the transport regulation

3,3´,5,5´-Tetramethylbenzidine	no information avail	ilable	
Ethylendiamintetraacetic-di-sodium-salt	LD ₅₀ (oral)	2000 mg/kg	Rat
5-Chlor-2-methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	3350 mg/kg	Rat
2-Methyl-4-isothiazolin-3-on	LD ₅₀ (oral)	550 mg/kg	Rat
Hydrogenperoxyd	LD ₅₀ (oral)	1232 mg/kg	Rat
	LD ₅₀ (dermal)	3000 mg/kg	Rabbit

Skin irritation Slight irritation

Eye irritation Slight irritation

CMR effects No information available

Specific target organ toxicity No information available

Aspiration hazard No information available

11.2. Further information Quantative data on toxicity of the mixture are not available

12. Ecological information

12.1. Toxicity Only relevant for the preservatives 5-Chlor-2-methyl-4-isothiazolin-3-on und 2-Methyl-4isothiazolin-3-on.

Species	Туре	Value	Exposition time (h)
Trout	LC ₅₀ (mg/l)	0,19	
Perch	LC ₅₀ (mg/l)	0,28	
Algae (Skeletonema costatum)	EC50 (mg/l)	0,003	
Algae (Selenastrum capricornutum)	EC50 (mg/l)	0,018	
Invertebrate (Daphnia magna)	EC ₅₀ (mg/l)	0,16	

12.2. Persistence and degradability Substance	t1/2 anaerob (h)
5-Chlor-2-methyl-4-isothiazolin-3-on	4,8
2-Methyl-4-isothiazolin-3-on	9,1
12.3. Bioaccumulative potencial No information available	
12.4. Mobility in soil No information available	
12.5. Results of PBT- and vPvB-assessmen A PBT- and vPvB-assessment is not availab required/not conducted.	-
12.5. Other adverse effects No other effects are known When using according the instruction ecolog	jical danger is not expected

13. Disposal consideration

Leftovers should be disposed concerning to the regulation 2008/98/EC and/or national and regional regulations.

Uncontaminated packing can be treated as normal waste or conduct into the recycling process.

14. Transport information

Not supposed to the transport regulation

ADR/RID

ΙΑΤΑ

IMDG

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture EU regulation

This safety data sheet complies with the requirements of the regulation (EC) No. 1907/2006

15.2. Chemical safety assessment For this product a chemical safety assessment was not carried out

16. Other information

Text of H-codes mentioned in section 2

H301	Toxic if swallowed

- H302 Harmful when swallowed
- H311 Toxic in contact with skin
- H314 Causes severe skin burns and eye damage
- H315 Cause skin irritation
- H317 May cause an allergic skin reaction
- H318 Causes serious eye damage
- H319 Causes serious eye irritation
- H331 Toxic if inhaled

H335	May cause respiratory irritation
H410	Toxic to aquatic life with long lasting effects
Precautionary state	ments
•	
P280	Wear protective gloves, protective clothing, eye protection
P302+P352	If on skin: Wash with plenty of soap and water
P305+P351+P338	If in eyes: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rising.
P310	Immediately call a POISON CENTER or doctor/physician

The information contained herein is based on the present state of our knowledge. It characteriises the product with regard to the appropriate safety precautions. It does not represent a guarantee of any properties of the product.

Safety data sheet According to regulation (EC) No. 1907/2006

Rev.date: 19.01.2024 replaces version from 10.05.2019

 Identification of the substance/preparation and the company/undertaking 1.1. Product identifier Catalogue no.: IC6300wp Product name: Wash buffer conc. (WASHBUF)

anti Gliadin / anti transglutaminase

1.2. Relevant identified uses of the substance or mixture and uses advised against Materials for use in the appropriate testkit.

1.3. Details of the supplier of the safety data sheet Company: ImmuChrom GmbH Lise-Meitner-Str. 13 64646 Heppenheim Tel.: +49 6252 910084 Fax: +49 6252 910070 Email: info@immuchrom.de www.immuchrom.de

1.4. Emergency telephone number Available during the normal working hours +49 6252 910084

Hazards identification
 Classification of the substance or mixture (Regulation (EC) No 1272/2008 none

2.2. Label elements (Regulation (EC) No 1272/2008 Hazard pictograms

Signal word

Hazard statements

Precautionary statements P280 P302 + P352 P305 + P351 + P338 P310

3. Composition/information on ingredients

The mixture contains the substances listed below and substances without dangerous potential.

CAS-No. EINECS Description Percent 26172-55-4 247-500-7 5-Chlor-2-methyl-4-isothiazolin-3-on <0,005 2682-20-4 220-239-6 2-Methyl-4-isothiazolin-3-on <0,001	H-codes of pure substance 301, 311, 314, 317, 331, 410 301, 311, 314, 317, 331, 410
---	---

4. First aid measures

4.1. Description of first aid measuresGeneral advice: First aider needs to protect himself.After inhalation: Fresh air, in case of discomfort consult a physician.

After skin contact: Wash with plenty of water, remove contaminated clothing, in case of discomfort consult a physician.

After eye contact: Rinse out with plenty of water. Immediately contact a ophthalmologist.

If swallowed : Give water to drink (two glases at most). Immediately contact a physician.

4.2. Most important symptoms and effects, both acute and delayed No information available

4.3. Indication of immediate medical attention and special treatment needed No information available

5. Fire fighting measures

5.1. Extinguishing media Suitable extinguishing media: Water, foam, carbon dioxyde (CO₂)

Unsuitable extinguishing media: none

5.2. Special hazards arising from the substance ort he mixture Ambient fire may cause evolution of nitrous gases

5.3. Advice for firefighters

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation, observe emergency procedures, call an expert.

6.2. Environmental precaution Do not empty into drains

6.3. Methods and materials for containment and cleaning up Cover drains. Collect, bind and pump off spills.

6.4. Reference to other sections For waste treatment refer to section 13

7. Handling and storage

7.1 Precaution for safe handling Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards.

7.2. Conditions for safe storage, including any incompatibilities

Keep tightly closed.

Store at +2 - +8 °C.

7.3. Specific end uses Apart from the use mentioned in section 1.2. no other specific uses are stipulated

8. Exposure controls/personal protection

8.1. Control parameters

CAS-No.	Description
26172-55-4	5-Chlor-2-methyl-4-isothiazolin-3-on
2682-20-4	2-Methyl-4-isothiazolin-3-on

MAK (TRGS 900) 0,05 mg/m³ 0,05 mg/m³

8.2. Exposure controls

Technical measures to reduce safety risk for the operator should be given priority over the use of personal protective equipment.

Individual protection measures

Hygiene measures: Wear disposable gloves while handling specimens or kit reagents and wash hands thoroughly afterwards. Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled.

Eye protection: Wear safety glasses.

Hand protection: wear safety gloves

The gloves must comply with the specifications of the directive EC 89/686/EEC and the related standard EN374.

Respiratory protection: Not necessary

Environmental exposure control: Do not empty into drains

9. Physical and chemical properties

10. Stability and reactivity

10.1. Reactivity no information available

10.2. Chemical stability Temperature sensitive. The mixture is stable at 2-8 °C up to the expiry date given on the label

10.3. Possibility of hazardous reactions Risk of explosion and/or toxic gas formation with the following substances no information available Violent reactions possible with:

No degradation when using according to the specification

10.4. Conditions to avoid Heat, direct sunlight

10.5. Incompatible materials Heavy metal salts, peroxidases, catalses

10.6. Hazardous decomposition products No information available.

11. Toxicological information

 11.1. Information on toxicological effects Component 5-Chlor-2-methyl-4-isothiazolin-3-on 2-Methyl-4-isothiazolin-3-on 	Type LD ₅₀ (oral) LD ₅₀ (oral)	Value 3350 mg/kg 550 mg/kg	Species Rat Rat
Skin irritation Slight irritation			
Eye irritation Slight irritation			

CMR effects No information available

Specific target organ toxicity No information available

Aspiration hazard No information available

11.2. Further information

Quantative data on toxicity of the mixture are not available

12. Ecological information

12.1. Toxicity	
----------------	--

Only relevant for the preservatives 5-Chlor-2-methyl-4-isothiazolin-3-on und 2-Methyl-4-isothiazolin-3-on.

Species	Туре	Value	Exposition time (h)
Trout	LC ₅₀ (mg/l)	0,19	
Perch	LC₅₀ (mg/l)	0,28	
Algae (Skeletonema costatum)	EC ₅₀ (mg/l)	0,003	
Algae (Selenastrum capricornutum)	EC50 (mg/l)	0,018	
Invertebrate (Daphnia magna)	EC ₅₀ (mg/l)	0,16	
12.2. Persistence and degradability			
Substance	t1/2 anaerob (h)		
5-Chlor-2-methyl-4-isothiazolin-3-on	4,8		
2-Methyl-4-isothiazolin-3-on	9,1		
12.3. Bioaccumulative potencial No information available			

12.4. Mobility in soil

No information available

12.5. Results of PBT- and vPvB-assessment A PBT- and vPvB-assessment is not available, as a chemical safety assassment is not required/not conducted.

12.5. Other adverse effects No other effects are known When using according the instruction ecological danger is not expected

13. Disposal consideration

Leftovers should be disposed concerning to the regulation 2008/98/EC and/or national and regional regulations.

Uncontaminated packing can be treated as normal waste or conduct into the recycling process.

14. Transport information

Not supposed to the transport regulation
