The RD191100200R Human Omentin-1 ELISA is a sandwich enzyme immunoassay for the quantitative measurement of human omentin-1.

The kit measures omentin-1 in serum and plasma (EDTA, citrate, heparin).

For professional use only. Users should have a thorough understanding of the Product Data Sheet prior to their use of this kit.

Kit Components:

A) Antibody Coated Microtiter Strips
   No hazardous ingredients.

B) Biotin Labelled Antibody Conc. 50x
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.

C) Streptavidin-HRP Conjugate
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.

D) Master Standard
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.

E) Quality Control HIGH
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.
   Contains human serum. This serum was found non-reactive for HBsAg, HCV antibody and for HIV 1/2 antigen and antibody. However, these materials should be handled as potentially infectious, as no test can guarantee the complete absence of infectious agents.

F) Quality Control LOW
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.
   Contains human serum. This serum was found non-reactive for HBsAg, HCV antibody and for HIV 1/2 antigen and antibody. However, these materials should be handled as potentially infectious, as no test can guarantee the complete absence of infectious agents.

G) Biotin-Ab Diluent
   Not a hazardous mixture according to CLP Regulation (EC) as amended.
   Safety Data Sheet is not required according to actual EC/EU Regulations.
Safety Information

Human Omentin-1 ELISA

Revision Date: 25.7.2016

H) Dilution Buffer
Not a hazardous mixture according to CLP Regulation (EC) as amended.
Safety Data Sheet is not required according to actual EC/EU Regulations.
Contains material of animal origin. These material should be handled as potentially infectious.

I) Wash Solution Conc. 10x
Not a hazardous mixture according to CLP Regulation (EC) as amended.
Safety Data Sheet is not required according to actual EC/EU Regulations.

J) Substrate solution
Not a hazardous mixture according to CLP Regulation (EC) as amended.
Safety Data Sheet is not required according to actual EC/EU Regulations.

K) Stop Solution
Not a hazardous mixture according to CLP Regulation (EC) as amended.
Safety Data Sheet for this mixture according to actual EC/EU Regulations is attached.
SECTION 1 IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

1.1 Product identifier
Trade name: Stop Solution (C008111)
Catalogue number: C008111

1.2 Relevant identified uses of the substance or mixture and uses advised against
Stop solution for the ELISA kit.

1.3 Details of the supplier of the safety data sheet
BioVendor - Laboratorní medicína a.s.
Karásek 1767/1
621 00 Brno
Czech Republic
Identification number: 63471507
Tel: +420 549 124 185
E-mail: info@biovendor.com

1.4 Emergency telephone number
Toxicology information centre, Na Bojišti 1, 128 21 Prague, Czech Republic, Tel: +420 224 919 293 or +420 224 915 402 (non-stop service).

SECTION 2 HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture
Classification according to Regulation 1272/2008/EC:
Not classified as dangerous.
This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). (USA)

2.2 Label elements
Not applicable.

2.3 Other hazards
Concentration limits for classification as dangerous are not met.

SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Mixtures

<table>
<thead>
<tr>

Classification according to regulation 1272/2008/EC:
Skin Corr. 1A, H314
Specific concentration limits: Skin Corr. 1A, H314: C ≥ 15 %; Skin Irrit. 2, H315: 5 % ≤ C < 15 %; Eye Irrit. 2, H319: 5 % ≤ C < 15 %.

For full text of and H-phrases see section 16.

SECTION 4 FIRST AID MEASURES

4.1 Description of first aid measures
General information: If feeling unwell or unsure, inform a doctor and show information from this Safety Data Sheet. If unconscious, place the affected person in the recovery position on their side with their head slightly backwards and take care there is no obstruction in their
respiratory tract, NEVER induce vomiting. If the affected person is vomiting, ensure that they do not choke on their own vomit.

If inhaled: Immediately stop the exposure, take the affected person to fresh air. Keep the affected person warm. Get medical attention if irritation, shortness of breath or other symptoms persists.

In case of skin contact: Take off contaminated clothing. Wash the affected area with plenty of lukewarm water, if possible. If skin is not irritated, soap, soap solution or shampoo can be used. Get medical attention if irritation persists.

In case of contact with eyes: Rinse the eyes immediately with plenty of running water keeping eyelids open; if the affected person wears contact lenses, remove them immediately. Continue rinsing for minimum 10 minutes. Get medical attention.

If ingested: DO NOT INDUCE VOMITING – even the act of inducing vomiting may cause complications. Rinse mouth, if possible, administer a small dose of activated carbon (1-2 crushed tablets); do not attempt neutralization. Get medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Inhalation: Possible respiratory tract irritation, cough, headache.

Skin contact: Painful reddening, irritation.

Eye contact: May cause irritation.

Ingestion: May cause irritation, sickness.

4.3 Indication of any immediate medical attention and special treatment needed
Immediate medical attention is not necessary.

SECTION 5  FIREIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Alcohol resistant foam, carbon dioxide, powder, dispersed water, water spray.

Unsuitable extinguishing media: none known.

5.2 Special hazards arising from the substance or mixture

In case of fire sodium oxides can be released.

5.3 Advice for firefighters

Keep the contaminated fire-extinguishing media away from drains, surface and ground water. If necessary, wear a suitable self-contained breathing apparatus and full protective clothing.

SECTION 6  ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Ensure sufficient ventilation. Wear proper protective equipment, refer to Section 8.

6.2 Environmental precautions

Avoid soil contamination and keep away from surface and ground water. Avoid spills and keep away from drains.

6.3 Methods and material for containment and cleaning up

Cover spills with suitable (non-flammable) absorbent (sand, diatomaceous earth, soil, and other suitable absorbent material); collect in a tightly closed container and dispose of in compliance with Section 13. Dispose of the contained material in accordance with local regulations. After containment, wash the affected area with plenty of water or other suitable detergent.

6.4 Reference to other sections

See section 7 for handling, section 8 for personal protective equipment, section 13 for disposal.
SECTION 7 HANDLING AND STORAGE

7.1 Precautions for safe handling
Do not inhale gases and vapours. Avoid contact with the skin and the eyes. Wear suitable personal protective equipment according to Section 8. Comply with local and national regulations on occupational health and safety. Avoid long-term and repeated exposure.

7.2 Conditions for safe storage, including any incompatibilities
Keep in tightly closed containers and in cool, dry and well ventilated designated places. Open packaging must be carefully closed and kept in a vertical position to avoid release or spill. Keep away from alkaline materials.

7.3 Specific end use(s)
See Section 1.2., no other uses are identified.

SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters
Czech Republic (Government Decree no. 361/2007 Sb. as amended): Sulphuric acid, SO₃:
long term 1 mg/m³, short term 2 mg/m³, note I (causes irritation of mucous membranes (eyes, respiratory tract) and skin irritation).

8.2 Exposure controls

8.2.1 Appropriate engineering controls
Use in a well ventilated area.

8.2.2 Individual protection measures, such as personal protective equipment
Take usual occupational health and safety measures. If it is impossible to meet exposition limits, suitable respiratory protective equipment must be used. When using, do not eat, drink and smoke. Wash hands carefully with water and soap after work and before breaks.

a) Eye/face protection: Use protective glasses (according to EN 166).

b) Skin protection: i) Hand protection: Use suitable protective gloves resistant to the product. Follow the recommendations of the gloves manufacturer when selecting the appropriate thickness, material and permeability. In the event of long-term or repeated dermal exposure, apply suitable hand cream to the parts of the skin in direct contact with the mixture. Follow other recommendations of the manufacturer.
ii) Other: Protective cotton clothing. Carefully wash the skin exposed to the product.

c) Respiratory protection: If necessary, wear a face respirator (according to EN 14387).

d) Thermal hazards: No information available.

8.2.3 Environmental exposure controls
Refer to Sections 6 and 12.

SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties
Appearance (at 20°C): Colourless liquid
Odour: Odourless
Odour threshold: Not determined
pH: 0.8
Melting point/freezing point (°C): No data available
Initial boiling point and boiling range (°C): No data available
Flash point (°C): No data available
Evaporation rate: No data available
Flammability: No data available
Upper/lower flammability or explosive limits: No data available
Vapour pressure: No data available
Vapour density: No data available
Relative density: No data available
Solubility: Soluble in water
Partition coefficient n-octanol/water: No data available
Auto-ignition temperature (°C): No data available
 Decomposition temperature: No data available
Viscosity: No data available
Explosive properties: No data available
Oxidizing properties: No data available

9.2 Other information
None known.

SECTION 10 STABILITY AND REACTIVITY

10.1 Reactivity
No hazardous reactions occur under common conditions of use.

10.2 Chemical stability
Stable under normal conditions.

10.3 Possibility of hazardous reactions
Reacts with strong bases.

10.4 Conditions to avoid
No data available.

10.5 Incompatible materials
Not known under recommended conditions of use.

10.6 Hazardous decomposition products
They are not produced under normal use. In the event of fire: sulphur oxides.

SECTION 11 TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects
Acute toxicity:
No data available on the product itself.

Sulphuric acid:
LD50, oral, rat: 3140 mg/kg
LD50, inhalation, rat: 510 mg/m³/2 h

Corrosion/irritation: May cause mild irritation. Product is not classified as irritant.

Chronic toxicity
Sensitisation: No data available.
Narcotic effects: No data available.
Carcinogenicity: No data available.
Mutagenicity: No data available.
Reproduction toxicity: No data available.

(*) – hazardous waste according to Directive No. 91/689/EEC on hazardous waste

SECTION 14 TRANSPORT INFORMATION

14.1 UN number
Not regulated.

14.2 UN proper shipping name
Not regulated.

14.3 Transport hazard class
Not regulated.

14.4 Packing group
Not regulated.

14.5 Environmental hazards
No data available.

14.6 Special precautions for user
No data available.

14.7 Transport in bulk according to Annex II of Marpol73/78 and the IBC Code
No data available.

SECTION 15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Act No. 350/2011 Coll., to regulate chemical substances and chemical mixtures and to amend some statutes, as amended. Implemented regulations to Act No. 350/2011 Coll., as amended

U.S. Federal regulations:
TSCA 8(a) CDR Exempt/Partial exemption: Not determined
United States inventory (TSCA 8b): All components are listed or exempted.
Clean Water Act (GWA) 311: sulphuric acid.

15.2 Chemical safety assessment
Chemical safety assessment has not been carried out.

SECTION 16 OTHER INFORMATION
